Inside Diameter:

Between 0.195 inches and 0.225 inches

Width:

Between 0.590 inches and 0.650 inches

Shaft Accommodation Style:

Round

Attachment Method:

Center hole

Overall Thickness:

Between 0.790 inches and 0.850 inches

End Application:

Aircraft, airlifter c-17a

Material Transparency:

Opaque

Special Features:

Made from p/n 17p1f8087-3 material is cres 15-5ph 180 ksi uts per dms 2253 condition h925; center hole is countersunk 0.385 x 100 degrees on top end

Color:

Gray, dark gull

Material:

Stainless steel

Style Designator:

Square or rectangular with bar face

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530m0
