Width:

Between 3.296 inches and 3.328 inches

Material Thickness:

0.093 inches

Length:

3.312 inches

Mounting Hole Diameter:

0.067 inches

Center To Center Distance Between Mounting Holes:

1.625 inches

Mounting Hole Quantity:

2

Scale Type:

Linear single scale

Special Features:

Dial is flat; side with reference markings is arched; reference markings range from -400 through +800; radius of arch is 2.312 in.; aperture exists between mounting holes; aperture has diameter of 1.376 in.

Material:

Aluminum alloy 6061 dial

Surface Treatment:

Anodize dial and plastic dial

Style Designator:

Offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A53010
