**Width:**

Between 3.296 inches and 3.328 inches

**Material Thickness:**

0.093 inches

**Length:**

3.312 inches

**Mounting Hole Diameter:**

0.067 inches

**Center To Center Distance Between Mounting Holes:**

1.625 inches

**Mounting Hole Quantity:**

2

**Scale Type:**

Linear single scale

**Special Features:**

Dial is flat; side with reference markings is arched; reference markings range from -400 through +800; radius of arch is 2.312 in.; aperture exists between mounting holes; aperture has diameter of 1.376 in.

**Material:**

Aluminum alloy 6061 dial

**Surface Treatment:**

Anodize dial and plastic dial

**Style Designator:**

Offset

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A53010
