Inside Diameter:

Between 0.127 inches and 0.129 inches

Setscrew Hole Quantity:

2

Distance From Hole Center To Knob/skirt Base:

0.310 inches

Gripping Surface Condition:

Grip aid

Shaft Accommodation Style:

Flatted one side

Outside Diameter:

0.750 inches

Reference Marking:

None

Attachment Method:

Setscrews

Inside Width:

Between 0.107 inches and 0.109 inches

Overall Thickness:

0.660 inches

End Application:

E-8 joint stars pse

Material Transparency:

Clear

Thready Qty Per Inch (tpi):

40 setscrew

Thread Size:

0.112 inches setscrew

Thread Tolerance Class:

3a external setscrew

Special Features:

Material is thermoplastic molding compound, has a brass insert per qq-b-626

Color:

Black

Material:

Plastic

Style Designator:

Round fluted

Thread Series Designator:

Unc setscrew

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530m0
