End Style:

Spring end, squared and ground both ends

Stock Diameter:

0.875 inches

Spring Free Length:

14.500 inches

Coil Quantity:

14.400

Spring Solid Length:

13.000 inches

Coil Helix Direction:

Right-hand

Active Coil Quantity:

12.700

Special Features:

Life cycles min 50, 000. Maximum deflection 1.25", load at maximum deflection 1, 310 pounds, load at min deflection 655 pounds, average load 980 pounds, variable load 330 pounds. Spring mean diameter 3.875

Material:

Steel comp 1095

Material Specification:

Astm-a689 assn standard all material responses and astm a-29 assn standard all material responses

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
