Inside Diameter:

1.039 inches

End Style:

Offset hinge end, left side

Spring Free Length:

1.250 inches

Coil Quantity:

7-7/10

Coil Helix Direction:

Left-hand

Spring Free Outside Diameter:

1.335 inches

Hook Radius:

0.281 inches

End Angular Relationship:

Ends angled one to other

End Length:

1.140 inches both ends

Special Features:

2nd torque load ratings inch-pounds 45.000 to 55.000, 2nd torque load rating rotation 127.0 deg

Material:

Steel

Material Specification:

Jan-1160, grade 2, type a, material n0. 4 military specification single material response

Surface Treatment:

Zinc and chromate

Surface Treatment Specification:

Qq-z-325, type 2, class 2 federal specification single treatment response

Style Designator:

Single torsion left hand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900

Mil-std (military Standard):

spec.
