Inside Diameter:

0.914 inches

End Style:

Spring end, squared and ground both ends

Spring Free Length:

1.200 inches

Coil Quantity:

5

Spring Solid Outside Diameter:

Between 1.105 inches and 1.145 inches

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

Between 1.105 inches and 1.145 inches

Special Features:

Can be compressed to 0.580 in. Without permanent set

Material:

Steel comp 631

Material Specification:

Armco 17-7ph mfr ref single material response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
