Inside Diameter:

0.178 inches

End Style:

Spring end, squared and ground second end

Spring Free Length:

1.250 inches

Coil Quantity:

14-1/2

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

0.250 inches

Material:

Copper alloy 511

Style Designator:

Cylindrical

Reference Number Differentiating Characteristics:

Fuel system engine aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
