End Style:

Spring end, ground both ends

Bore Diameter:

0.750 inches

Spring Free Length:

2.000 inches

Accommodated Rod Diameter:

0.375 inches

Material Hardness Rating:

Between 38.0 rockwell c and 46.0 rockwell c

Coil Quantity:

12

Spring Solid Length:

1.156 inches

Coil Helix Direction:

Right-hand or left-hand

Spring Deflection Rate:

264.000 pounds per inch

Material:

Steel comp 1065 or steel uns k07001

Material Specification:

Astm a229 assn standard 1st material response

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
