**End Style:**

Spring end, ground both ends

**Bore Diameter:**

0.750 inches

**Spring Free Length:**

2.000 inches

**Accommodated Rod Diameter:**

0.375 inches

**Material Hardness Rating:**

Between 38.0 rockwell c and 46.0 rockwell c

**Coil Quantity:**

12

**Spring Solid Length:**

1.156 inches

**Coil Helix Direction:**

Right-hand or left-hand

**Spring Deflection Rate:**

264.000 pounds per inch

**Material:**

Steel comp 1065 or steel uns k07001

**Material Specification:**

Astm a229 assn standard 1st material response

**Surface Treatment:**

Cadmium and chromate

**Surface Treatment Specification:**

Qq-p-416, type 2, class 2 federal specification single treatment response

**Style Designator:**

Cylindrical

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A02900
