Inside Diameter:

0.260 inches

End Style:

Spring end, squared and ground both ends

Spring Free Length:

1.675 inches

Coil Quantity:

14

Spring Solid Length:

0.920 inches

Coil Helix Direction:

Right-hand or left-hand

Spring Deflection Rate:

66.000 pounds per inch

Material:

Steel comp 631

Material Specification:

Ams 5673 assn standard single material response

Surface Treatment:

Passivate

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
