Inside Diameter:

0.937 inches

End Style:

Spring end, squared and ground both ends

Spring Free Length:

7.125 inches

Coil Quantity:

22

Spring Solid Length:

2.750 inches

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

1.187 inches

Special Features:

Roast to 375 degrees for 2 hours immediately after plating

Material:

Steel

Material Specification:

N, 22-w-11c mfr ref single material response

Surface Treatment Specification:

An-p-32, chromate os 1374 military specification single treatment response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900

Mil-std (military Standard):

spec.
