Inside Diameter:

0.218 inches

End Style:

Spring end, squared and ground both ends

Spring Free Length:

0.750 inches

Coil Quantity:

8-1/2

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

0.290 inches

Special Features:

Bearing surface to be 315 degrees on both ends

Material:

Steel

Material Specification:

N, 22-w-11 mfr ref single material response

Surface Treatment:

Copper

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
