End Style:

E1 spring end, ground both ends

Bore Diameter:

1.730 inches

Spring Free Length:

3.780 inches

Material Hardness Rating:

Between 47.0 rockwell c and 51.0 rockwell c

Coil Quantity:

90.0

Spring Solid Length:

1.975 inches

Spring Solid Outside Diameter:

1.657 inches

Coil Helix Direction:

Right-hand

Spring Deflection Rate:

123.700 pounds per inch

Special Features:

2350-01-087-1095

Material:

Steel

Material Specification:

Astm a401 assn standard single material response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
