End Radius:

0.375 inches

Coil Quantity:

7

End Length:

0.062 inches

Hub End Style (non-core):

Err-090

Special Features:

Heat treat spring temper per mil-h-6875

Material:

Steel comp 1095

Material Specification:

Qq-s-666 federal specification single material response

Surface Treatment:

Cadmium and phosphate

Surface Treatment Specification:

Pr3-1 mfr ref single treatment response and pr2-3 mfr ref single treatment response

Style Designator:

Eye loop

Supplementary Features:

Manufacturers name: spring, drag chute fus. Station, 392 deploy and release, torsion

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A02900
