Inside Diameter:

1.136 inches

End Style:

Machine loop end second end

Stock Diameter:

0.182 inches

Spring Free Length:

0.560 inches

Coil Quantity:

1-1/2

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

1.500 inches

Hook Radius:

0.190 inches second end

Criticality Code Justification:

Feat

End Length From First Bend To Second Bend Or End:

0.372 inches first end

Special Features:

Underwater life support iaw navsea instruction 10560.2b

Material:

Copper alloy 510

Style Designator:

Single torsion right hand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
