Coil Helix Direction:

Left-hand or right-hand

Spring Deflection Rate:

2.166 pounds per inch

Special Features:

Full twist loop, special ends on request, uniform body diameter and are produced with full twist loops, would with initial tension, some force is required before the coils are initially separated, capable of wide application for experimental, development, prototype and maintenance work, standard finish is that of normal wire

Material:

Steel comp 302

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02900
