Hub End Style (non-core):

Err-090

Special Features:

Pspring- torsion, leaf, spiral retrieval rig; item includes spring and retaining band; diameter of rod over which spring is tested shall be 1.1875; spring rate is 1.06 in-lbs/deg ref; spring outside diameter is 2.730

Material:

Steel comp 631

Material Specification:

Ams5528 assn standard single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p- 35, ty ii federal specification single treatment response

Style Designator:

Eye loop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
