Inside Diameter:

18.7 millimeters

End Style:

Extended

End Application:

Lw155 howitzer

Spring Free Length:

100.0 millimeters

Coil Quantity:

5

Coil Helix Direction:

Left-hand

Spring Free Outside Diameter:

20.5 millimeters

End Angular Relationship:

Ends angled one to other

Product Name:

Spring, torsion

End Length:

50.0 millimeters

End Length From Coil Axis To First Bend:

25.0 millimeters

End Length From First Bend To Second Bend Or End:

25.0 millimeters

Functional Description:

Spring to work freely in its loaded and unloaded conditions over a 13 diameter shaft

Material:

Steel

Style Designator:

Double torsion, right and left hand

Supplementary Features:

Wire dia. 1.78mm; axial length deflected 13.3mm; torque deflected 791nmm; free position and deflection 90 deg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
