Inside Diameter:

5.0 millimeters

End Style:

E4 spring end, squared and ground both ends

Stock Thickness:

0.2 millimeters

Spring Free Length:

2.8 millimeters

Coil Quantity:

3

Support Load Rating:

30 newtons at 1.7 mm work height

Spring Deflection Rate:

28.810 newtons per millimeter

Spring Free Outside Diameter:

8.0 millimeters

Product Name:

Crest-to-crest wave spring, squared-shim ends

Special Features:

2.5 waves

Functional Description:

Crest-to-crest wave spring

Material:

Steel

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
