End Style:

E1 spring end, ground

Stock Thickness:

0.045 inches

End Application:

2355-01-539-3589; light armored vehicle

Spring Free Length:

0.500 inches

Coil Quantity:

8

Spring Solid Length:

0.192 inches

Coil Helix Direction:

Right-hand

Spring Free Outside Diameter:

Between 0.472 inches and 0.488 inches

Product Name:

Spring, precision compression

Special Features:

Material: steel; steel type: zinc-plated steel music wire; wire type: round wire; load: 9.1 lbs; deflection at load: 0.260 inch; rate: 35 lbs/inch; rate tolerance: plus/minus 8 percent lbs./in.; astm specification: astm a228

Material:

Steel

Surface Treatment:

Zinc

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A02900
