Overall Length:

2.900 inches

Overall Width:

1.950 inches

Lamination Quantity:

16

Lamination Thickness:

0.003 inches

Features Provided:

Separable

Construction:

Laminated

Special Features:

2 corners have radius; both width edges tapered

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8 federal specification single material response

Purchase Description Identification:

76823-40s400d195-290

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
