Inside Diameter:

Between 0.757 inches and 0.767 inches

Outside Diameter:

Between 0.850 inches and 0.860 inches

Overall Thickness:

0.032 inches

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12, t6 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
