Inside Diameter:

Between 0.752 inches and 0.765 inches

Outside Diameter:

Between 0.960 inches and 0.980 inches

Overall Thickness:

Between 0.071 inches and 0.072 inches

Features Provided:

Casehardened

Hardness Rating:

60.0 rockwell c

Special Features:

I/d is chamfered .015 in., o/d .010

Material:

Steel comp 1015

Material Specification:

Ams 5060 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
