Inside Diameter:

Between 11.460 inches and 11.470 inches

Outside Diameter:

Between 11.840 inches and 11.850 inches

Overall Thickness:

Between 0.050 inches and 0.060 inches

End Application:

Landing gear system-components; nha 4g11415; e/i ma0001a

Hardness Rating:

Between 40.0 rockwell c and 45.0 rockwell c

Criticality Code Justification:

Agav

Surface Finish:

125.0 microinches

Product Name:

Washer, special-main landing gear

Material:

Steel comp 410

Material Specification:

Ams 5504 assn standard single material response

Fsc Application Data:

Landing gear, retractable, aircraft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
