Body Outside Diameter:

0.5620 inches

Corner Shape:

Square all corners

Special Features:

Used on aerodynamic baffle

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t351 federal specification single material response

Style Designator:

Solid, plain, no outside flanges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A045a0
