Cross-sectional Height:

Between 0.220 inches and 0.280 inches

Bolt Hole Quantity:

1

End Application:

F-4a, f-4b, f-4d, f-4e, f-4c, rf-4c, f-4b, rf-4b, yf-4k, f-4k, yf-4m, f-4m, f-4j

Product Name:

Spacer, pylon support fitting

Special Features:

Spacer is 0.97in - 1.03 in long, 0.71 in - 0.74 in wide, with square corners on one end and 0.25 radius spherical on the other end it has a 0.312 in - 0.319 in diameter hole through it with the center of the hole located 0.34in - 0.46in from the spherical end and 0.30in - 0.42in from the side

Material:

Aluminum alloy

Material Specification:

Qq-a-596 comp b, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
