Hole Diameter:

0.343 inches

Bolt Circle Diameter:

Between 2.464 inches and 2.484 inches

Outside Diameter:

4.250 inches

Aperture Diameter:

2.093 inches

Bolt Hole Quantity:

4

Lamination Quantity:

1

Lamination Thickness:

0.002 inches

Features Provided:

Separable

Construction:

Laminated

Special Features:

Segment of circle is cut off 1-11/16 in. From center of aperture parallel with any two adjacent bolt holes

Material:

Copper alloy

Style Designator:

Circular

Specification Or Standard:

2 composition and 1 type and 1 class

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
