Inside Diameter:

Between 12.510 inches and 12.515 inches

Outside Diameter:

Between 13.002 inches and 13.003 inches

Overall Thickness:

Between 2.985 inches and 3.000 inches

Surface Finish:

63.0 microinches bore

Material:

Copper alloy 510

Material Specification:

Qq-b-750, comp a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
