Hole Diameter:

0.410 inches

Outside Corner Radius:

0.430 inches

Special Features:

Wedge-shaped plates sides tapered 22, 23 degrees w/horizontal side 1.500 in.Lg and bolt center located 0.380 in. From horizontal side on vertical centerline and outside corner radius 0.430 in. Measured from bolt center on vertical centerline

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
