Overall Length:

3.700 inches

Overall Width:

2.080 inches

Lamination Quantity:

16

Lamination Thickness:

0.003 inches

Features Provided:

Nonseparable

Construction:

Laminated

Special Features:

2 corners beveled, 2 radius

Material:

Aluminum alloy 5052

Material Specification:

Qq-a-250/8, h34 federal specification single material response

Purchase Description Identification:

76823-40s400d208-370

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
