Inside Diameter:

Between 0.622 inches and 0.624 inches

Outside Diameter:

Between 0.658 inches and 0.660 inches

Overall Thickness:

Between 0.107 inches and 0.110 inches

Surface Finish:

32.0 microinches largest outside diameter

Material:

Plastic polytetrafluoroethylene

Material Specification:

Ams 3651 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
