Fabrication Method:

Welded

Mounting Method:

Straps

Inside Width:

Between 0.730 inches and 0.770 inches

Inside Height:

Between 0.590 inches and 0.650 inches

Stock Size:

0.148 in. Dia

Straight Side Form:

Nonroller

Material:

Steel qq-w-461 composition 1006 through 1020 or iron, malleable qq-i-666 grade 1

Material:

Steel qq-w-461 composition 1006 through 1020 or iron, malleable qq-i-666 grade 1

Surface Treatment:

Zinc and phosphate and enamel semigloss

Surface Treatment Specification:

Qq-z-325, type 3, class 2 federal specification single treatment response and mil-e-480, type 1 or type 2 military specification single treatment response

Surface Treatment:

Zinc plate, qq-z-325, type 3, class 2 and enamel, mil-e-480, type 1 or type 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-a

Mil-std (military Standard):

Mil-e-480 spec.
