Inside Diameter:

Between 3.740 inches and 3.760 inches

Outside Diameter:

Between 4.925 inches and 4.930 inches

Overall Thickness:

Between 0.057 inches and 0.067 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-355, t4 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
