Inside Diameter:

Between 0.314 inches and 0.318 inches

Outside Diameter:

0.370 inches

Overall Thickness:

Between 0.031 inches and 0.033 inches

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t4 federal specification single material response

Fsc Application Data:

Indicator, airspeed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
