Inside Diameter:

Between 2.002 inches and 2.006 inches

Outside Diameter:

2.300 inches

Overall Thickness:

0.442 inches

Surface Finish:

125.0 microinches

Special Features:

One id corner broken by 0.190 in. Radius

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t357 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
