Inside Diameter:

Between 0.250 inches and 0.255 inches

Outside Diameter:

Between 0.310 inches and 0.315 inches

Overall Thickness:

Between 0.015 inches and 0.017 inches

Material:

Steel comp 301 or steel comp 302

Material Specification:

Qq-s-766 temper full hard federal specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Mil-f-14072, finish no. E300 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-f-14072 spec.
