Overall Length:

2.040 inches

Bolt Circle Diameter:

1.468 inches

Overall Width:

1.740 inches

Outside Corner Radius:

0.190 inches

Side Radius From Gasket Center:

0.870 inches

Special Features:

Rectangular shape; bolt holes located at each corner 0.470in. From vertical centerline, 0.830 in. From horizontal centerline

Material:

Aluminum alloy

Material Specification:

Qq-a-250/1 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
