Overall Length:
2.040 inches
Bolt Circle Diameter:
1.468 inches
Overall Width:
1.740 inches
Outside Corner Radius:
0.190 inches
Side Radius From Gasket Center:
0.870 inches
Special Features:
Rectangular shape; bolt holes located at each corner 0.470in. From vertical centerline, 0.830 in. From horizontal centerline
Material:
Aluminum alloy
Material Specification:
Qq-a-250/1 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07000
