Inside Diameter:

Between 2.437 inches and 2.469 inches

Outside Diameter:

Between 3.172 inches and 3.188 inches

Overall Thickness:

Between 0.24785 inches and 0.24815 inches

Criticality Code Justification:

Adum

Special Features:

Bearing surfaces must be flat and parallel within 0.0002 in. Tir

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
