Inside Diameter:

Between 3.500 inches and 3.504 inches

Outside Diameter:

Between 3.992 inches and 3.996 inches

Overall Thickness:

Between 0.300 inches and 0.320 inches

Surface Finish:

63.0 microinches

Special Features:

Corner dim., outside right rounded by 0.215 in. Nom radius, inside leftchamfered 0.070 in. Lg by 45 deg

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-268, t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
