Overall Length:

2.950 inches

Overall Width:

1.500 inches

Special Features:

Two holes along the long edge on the broad surface, centered 0.400 in. From the same long edge and 0.600 in. From their respective short edge and 1.750 in. Apart; one hole has a diameter of 0.276 to 0.283 in. And the other hole has a diameter of 0.193 to 0.199 in.

Material:

Aluminum alloy 7075

Material Specification:

Qq-a-250/12, t651 federal specification single material response

Style Designator:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A07000
