Inside Diameter:

Between 0.260 inches and 0.262 inches

Outside Diameter:

Between 0.336 inches and 0.337 inches

Overall Thickness:

Between 0.047 inches and 0.062 inches

Surface Finish:

125.0 microinches

Material:

Aluminum alloy 2024

Material Specification:

Ams 4120 assn standard single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
