Inside Diameter:

Between 7.255 inches and 7.265 inches

Outside Diameter:

7.739 inches

Overall Thickness:

Between 0.630 inches and 0.640 inches

End Application:

Landing gear systems

Criticality Code Justification:

Agav and aarx

Special Features:

Chamfered 20 degrees on inside dia

Material:

Steel comp 4340

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
