Inside Diameter:

Between 1.781 inches and 1.783 inches

Outside Diameter:

Between 1.965 inches and 1.970 inches

Overall Thickness:

Between 0.342 inches and 0.346 inches

Material:

Aluminum alloy 6061

Material Specification:

Ww-t-700/6, t6 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type 2 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000

Mil-std (military Standard):

Mil-a-8625 spec.
