General Description:

7 length is approximately 1.300 in.; within this length are three diameters. The flange has a diameter of approximately 0.400 in. With a width of approximately 0.100 in.; the next diameter, approximately 0.370 in., has a length of 0.670 in.; and the final diam., approximately 0.300 in., is 0.620 in. Long. There are two inner diameters. The first, approx. 0.310 in., is 0.720 in. Long and the second, approx. 0.210 in., is 0.580 in. Long. Between the two inner diameters is a 0.240 x 90.0 degrees countersink
