Overall Length:

1.040 inches

Overall Width:

0.500 inches

Construction:

One-piece

Hardness Rating:

Between 76.0 rockwell b and 86.0 rockwell b

Special Features:

One 0.094 in. W by 0.070 in. Deep slot 0.325 in. From one edge located in each end

Material:

Copper alloy 260 or copper alloy 268

Material Specification:

Qq-b-613, temp h federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
