Inside Diameter:

Between 0.623 inches and 0.627 inches

Outside Diameter:

Between 0.745 inches and 0.755 inches

Overall Thickness:

Between 0.023 inches and 0.027 inches

Special Features:

Not casehardened; hole shape: round; shape: round

Material:

Stainless steel

Material Specification:

Qq-s-763, class 304, condition a federal specification single material response

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
