Inside Diameter:
2.500 inches
Outside Diameter:
Between 2.918 inches and 2.920 inches
Overall Thickness:
0.031 inches
Special Features:
Not casehardened; surface finish and location: largest outside surface; 63.0; surface finish and location: bore; 63.0; hole shape: round;
shape: round; fsc application data: 1. Combustion controls
Material:
Stainless steel
Material Specification:
Aisi 304 assn standard single material response
Surface Treatment:
Passivate
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A07000
