Hole Diameter:

Between 0.531 inches and 0.546 inches

Bolt Circle Diameter:

5.375 inches

Overall Width:

6.437 inches

Aperture Diameter:

4.375 inches

Outside Corner Radius:

0.531 inches

Outside Corner Inverted Radius:

0.531 inches

Side Radius From Gasket Center:

2.937 inches

Bolt Hole Quantity:

6

Construction:

One-piece

Material:

Steel comp 1009

Material Specification:

Qq-s-698 federal specification single material response

Fsc Application Data:

Differential carrier component, driving axle, front

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07000
